PROGRAM FOR SCHOOL COMMUNITIES

Social Success in Schools[®]
REAFFIRM. REASSESS. REINVENT.

What is School-wide SEL?

→ Social-emotional learning (SEL) is a **systematic approach** to developing CASEL's five core equity-driven SEL competencies:

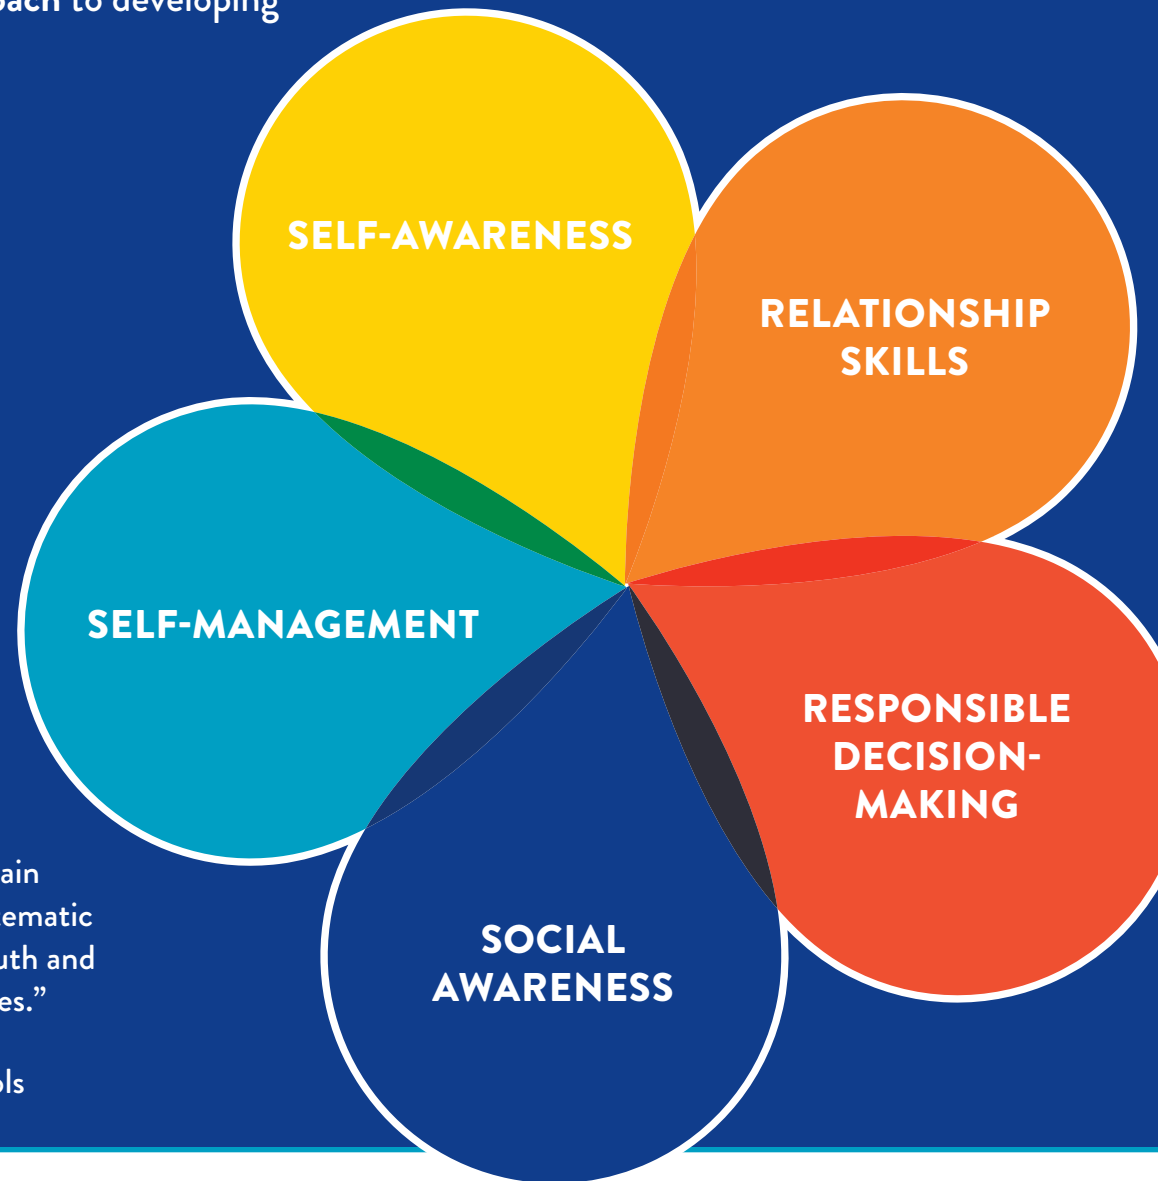

- Self-awareness
- Self-management
- Social awareness
- Relationship skills
- Responsible decision-making

→ SEL is an **intentional effort** to help our students acquire the necessary abilities and mindset to:

- develop healthy identities
- understand and manage their emotions
- set and achieve goals
- demonstrate kindness, empathy, and respect for others
- build meaningful and healthy relationships
- learn to use responsible-decision making

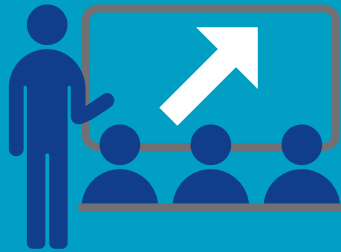

→ **“School-wide SEL** supports the collective action of a school community to educate the whole child and ensure all youth gain access to the benefits of social-emotional learning. It is a systematic process for building the social-emotional capacity of both youth and adults to create more caring and inclusive schools and societies.”
